

Inviata a oltre 2500 Rotary Club Indiani, al Presidente della Repubblica, al Presidente del Consiglio, al Ministro degli esteri, al Ministro della Difesa, Al capo di Stato Maggiore della Marina Militare Italiana

Dear Rotarian friends of India,  
we are writing you deep from our hearts and in the name of our friendship to ask you to intervene on behalf of our two Non-commissioned officers of Italian Navy that from more than two years are far from their homes and their families for having executed their orders. There may have been errors and the families of those who have been affected should be justly compensated. These military that have executed their orders, especially in extra territorial waters that are infested with naval piracy, do not deserve to be treated so.

Remember that Italian Rotarians, with love, understanding and friendship towards India, were among the first in the World for initiatives and contributions that have led to the eradication of the Polio in yours Country.

Rotary fights for justice and non-violence.

Please intervene to let them back in Italy.

Thank you,

long live to the Rotary
